NATURE'S BEST HOPE

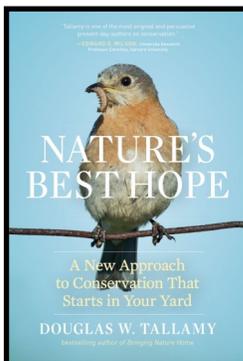

Featuring Doug Tallamy, PhD*

*Noted author of *Bringing Nature Home*, *The Living Landscape*
(with Rick Darke), *Nature's Best Hope* and *The Nature of Oaks*

A community event presented by
Alamance County Extension Master Gardeners

Recent headlines about insect declines and three billion fewer birds in North America are a bleak reality check about how ineffective our current landscape designs have been at sustaining the plants and animals that sustain *us*. The good news there's still time! Tallamy will discuss simple steps each of us can take by adding native plants to our home landscape to increase biodiversity. He will explain why we, ourselves, are nature's best hope.

Add native plants to your yard to support
birds, bees and butterflies
